Testimonial from past recipients Joe & Becca Devaney:

"We began searching for infertility grants in hopes that we could have another chance at becoming parents. Joe's co-worker mentioned that he had gone to the Keeping Hope Alive golf outing the year prior and that a couple had won and were expecting a little boy. Joe came home that night and told me to check it out, so we did. I was very hesitant to be honest because I was worried that I would get my hopes up and we would never win. We applied and couldn't believe it when we were notified that we were selected as one of the couples that could possibly win! Before we knew it, October was here, and it was time for the golf outing. That night Joe and I were selected as one of the couples that won! We are still in shock! Hope has been brought back to our lives and we can finally see the light at the end of this long tunnel. We will never be able to thank Keeping Hope Alive for this amazing opportunity."
